MAGNITUDE

In Pakistan

Diabetes

16.98%

Prevalence of T2 Diabetes

10.91%

Prevalence of Prediabetes

The scale and numbers keep growing and so do the complications.

Diabetes Prevalence Survey of Pakistan (DPS-PAK) Prevalence of Type 2 Diabetes and Prediabetes using HbA1c: A population based survey of Pakistan: Aamir AH et al. BMJ Open 2019-9

KPK Government response in providing “Free insulin” to the province and oral medicine in some districts are very welcome initiatives

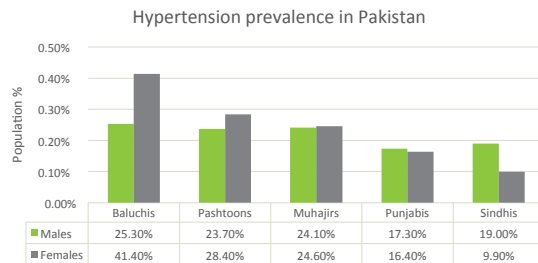

Hypertension

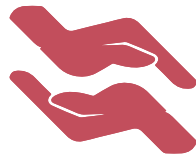

The National Health Survey of Pakistan estimated that hypertension affects 18% of adults and 33% of adults above 45 years old.

18 % of Adults
33% above 45 years old

The survey shows only 50% of the people with hypertension were diagnosed and that only half of those diagnosed were ever treated.

Partnership in Healthcare

Diabetes Hypertension and
Non Communicable Diseases

04

PARTNERSHIP

A Collaborative Partnership between Khyber Medical University and AIMS Pakistan Prioritising Diabetes Hypertension and Non-Communicable Diseases

KMU - Institute of Public Health and
AIMS Pakistan will mutually help in

- Providing clinical Services
- Implement concept of Family Medicine
- Together establish a Community based
Training & Research Centre in Diabetes
Hypertension and Non-Communicable
Diseases

05

Health guidelines across the globe are based on research. More often than not, high quality research can only be found in 'the West'. This results in Pakistan's health guidelines being dependent on research that is not local

RESEARCH

We presented our “Diabetes circle of care” concept in the IDF Congress, Hyderabad. The complications of 16,000 patients with diabetes were analysed.

In partnership with Baqai University, Karachi, we are studying the effectiveness of Ramadan specific Diabetes Education in the management of fasting patients with diabetes. We are one of ten centres participating in this study.

A comparative descriptive study of 1200 patients was conducted to determine prevalence of depressive and anxiety symptoms in adults with/without type 2 diabetes. Results were presented in Oman.

We are conducting a clinical audit to improve the re-call rate of patients who present with abnormal HbA1c results. This audit will allow us to improve the recall rate of patients who present with other abnormal results too.

For advocacy support and collaborative research Prime Institute of Public Health , Peshawar is a partner.

06 DIABETES IN CHILDREN

JDU - Juvenile Diabetes Unit - 2019 **For awareness in schools, children,** **teachers and families**

When an infant, toddler or a teen gets Type 1 diabetes, the child's body no longer produce insulin to survive, hence have to be given insulin injections.

Unit Lead - Mrs. Saba Tanveer, volunteer, mother of four, living with Type -1 diabetes for 25 years helped by husband, children and family.

JDU collaboration with KJDCF -

Kamal Juvenile diabetes care federation providing free treatment, insulin glucometer and strips at Khyber Teaching Hospital once a week. US based endocrinologist Dr. Touhed sponsors the initiative, is supported by Professor Nadeem Khawar, Dr. Sabahat and colleagues .

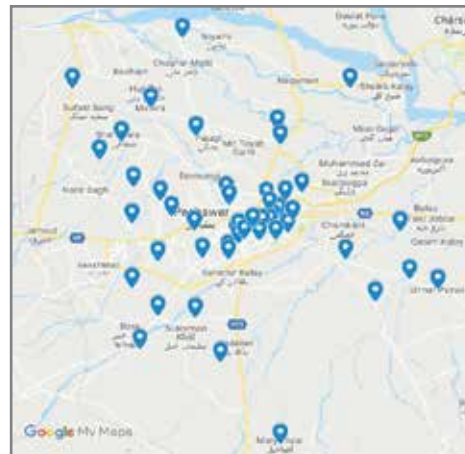

JDU will refer Type 1 children to KJDCF clinic and help with coordination.

12 AUDITS

TRANSPARENCY OF FINANCIALS

All the financial statements of last three years (2017,2018 & 2019) have been audited by the leading Chartered Accountants firms having Satisfactory QCR Rating as accredited by the Institute of Chartered Accountants of Pakistan. All the audited firms presented unqualified Audit Opinions. RSM Avais Hyder Liaquat Nauman & Co Chartered Accountants conducted the audit for the financial year ended June 30, 2019; the extract from their audit report is given as under;

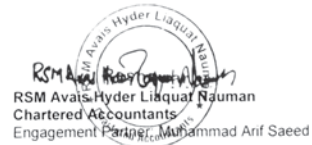

AUDIT OPINION

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the AIMS Pakistan as at June 30, 2019, and its financial performance and its cash flows for the year then ended in accordance with approved accounting and reporting standards as applicable in Pakistan.

TESTIMONIALS

شوگر ہسپتال کی سروسز
مریضوں کے لئے موثر اور
قابل تعریف ہیں۔ البتہ
یہاں کے بلڈنگ کا ماحول
در و دیوار فرش اور سیلینگ

ناعمہ عزیز خان
ایورڈ یافتہ انٹیریر ڈیزائینر

میرے خیال میں بالکل بھی اچھی نہیں ہیں اور اس سے بہت
بہتر ہو سکتی ہیں، میرا دل کرتا ہے کہ میں بھی اس بلڈنگ
اور ماحول کی بہتری میں اپنا حصہ ڈالوں۔ تاکہ یہاں کے
مریض اور ان کی فیملی یہاں آنے میں اور بھی اچھا محسوس
کریں۔ بالخصوص ایک گارڈن کا انتظام بہت اچھا اضافہ
ہوگا، میرے خیال میں اگر ہسپتال کے منتظمین، مریض اور
ان کی فیملیز اس کو بنانے میں تھوڑی سی معاونت کریں تو ہم
سب ملکر اس کو ایک بہترین کیونٹی ماڈل ہسپتال بنا سکتے ہیں

ڈاکٹر ارشد جاوید
وائس چانسلر خیبر میڈیکل
یونیورسٹی پشاور

مجھے ذیابیطس ایسوسی ایشن اور ایمز پاکستان کے زیر
انتظام شوگر ہسپتال میں آکر بہت خوشی ہوئی ہے۔
شوگر ہسپتال اور ذیابیطس ایسوسی ایشن غریب عوام
کے لئے انتہائی موثر سروسز مہیا کر رہے ہیں۔ خیبر
میڈیکل یونیورسٹی کی جانب سے ہم ان کے کام کو
قدر کی نگاہ سے دیکھتے ہیں۔

ڈاکٹر فاروق جمیل
اسپیشل سیکرٹری ہیلتھ،
خیبر پختونخوا پاکستان

ہم ایک غریب معاشرے
میں رہتے ہیں اگرچہ
حکومت اپنے وسائل میں
کسی حد تک ذیابیطس کا
مفت علاج کر رہی ہے لیکن

شوگر کے مریض اتنے زیادہ ہیں کہ اگر پریونٹ سیکڑ بھی اس
میں آجائے جیسے ذیابیطس ایسوسی ایشن اور ایمز پاکستان نے
یہ شوگر ہسپتال شروع کیا ہے تو معاشرے کی صحت میں
بہتری آسکتی ہے

یہاں آکے میں نے دیکھا کہ ان کے ہسپتال کا معیار کسی بھی
بہترین ہسپتال سے کم نہیں ہے۔ بالخصوص مریض کے ساتھ
عملے کا سادہ، پروقار اور مہذب برتاؤ بہت متاثر کن
ہے۔ اس کے علاوہ ان کی سروسز مریضوں کو بہت کم
پیسوں میں دستیاب ہیں۔

نور علی
عمر: 47 سال

یہ شوگر ہسپتال ایک سوشل ادارہ ہے، اور لوگوں کی مدد سے اور زکوٰۃ سے چلتا ہے۔ میں نے بھی اپنا علاج یہاں سے شروع کیا ہے۔ یہاں کے عملے اور ڈاکٹرز کا کوئی ذاتی لاچ نہیں ہے میری محیر حضرات سے درخواست ہے کہ وہ اس ادارے کے ساتھ مالی امداد، زکوٰۃ کی و خیرات کی شکل میں کریں۔ شوگر ایک ایسی بیماری ہے جو کہ مسلسل جاری رہتی ہے، میں نہیں چاہتا کہ جس طرح میری ٹانگ کا مسئلہ بنا ہوا ہے وہ کسی اور کو بھی ہو۔

نور جہاں
عمر: 49 سال

میرا نام نور جہاں ہے میرا تعلق پلوسی سے ہے۔ میرا تیسرا سال ہے شوگر ہسپتال سے علاج کرواتے ہوئے۔ میری حالت علاج کی وجہ سے بہتر ہے، یہاں کے ڈاکٹر بہت اچھے اور میں ان کی شکر گزار ہوں۔ ہم غریب لوگ ہیں زکوٰۃ سے یہ لوگ ہمارا علاج کرتے ہیں میں شوگر ہسپتال، اس کے عملے اور ان کے معاونین کی کامیابی کے لئے دعاگو ہوں۔

صائمہ
عمر: 10 سال

میرا نام صائمہ ہے مجھے دو سال ہوئے ہیں شوگر کا مرض ہوا ہے، مجھے پیاس بہت لگتی تھی اور ہاتھ روم بار بار جانا ہوتا تھا، اب علاج کرنے سے حالت بہتر ہے۔
